Hi Cari-Michel,

Thanks for trying to schedule a call for this afternoon. I'm trying to find out if the respective Region 6 Division Directors (Carl Edlund, Superfund Division; Bill Honker, Water Division, and; James McDonald, Management Division) are available at 2 pm as you requested. I'll let you know as soon as I hear back from them. Otherwise, I'll try to find a date and time convenient for all to coordinate a call at another time. As our Regional Counsel, Jim Payne, and Caroline Sweeney suggested, this call should be with TCEQ and EPA Program Directors only Legal folks like me should probably sit this one out.

Ed Q.

Ed,

Are you guys available at 2 pm on Monday (8/14) to discuss? Ill cram all of us in my office and we can call you if that works. Thanks, Cari-Michel

Ed:

Cari-Michel Lacaille, Director, Water Supply Division, is looking to see which members of her staff would be appropriate to include in these discussions.

Jim

Hi Jim,

Hope you enjoyed the Superconference this year. Sorry I couldn't be there to meet you in person this time around, but hopefully we'll get a chance to meet some day soon.

Anyway, I was just checking in to see if you had a chance to coordinate with your Program clients and figure out which TCEQ counterparts should be on the call to discuss the lab analysis request with the EPA folks. As I mentioned, our respective head counsels agreed to have Program management from each agency hold a conference call to discuss the request. At this point, I envision the EPA Region 6 Directors for the Superfund Division, Water Division and Management Division, as well as the Houston Lab management, be on such a call. Please let me know whom at TCEQ should be on that call and their dates of availability, and I'll try to coordinate and schedule the call.

Thanks,

Ed Q.

Hi Jim,

It was a real pleasure speaking with you this morning. As I mentioned, I plan to coordinate with several Division Directors at Region 6 to help schedule a conference call on TCEQ's request. I greatly appreciate your offer in gathering the names and contact information on TCEQ technical program managers for the same purpose. I'll await your response on that while I continue to coordinate with our management on scheduling the call.

Best regards,

Ed Q.

Hi Jim,

Our Regional Counsel has elevated TCEQ's request to Region 6 upper management after speaking with Ms. Caroline Sweeney recently. He and Ms. Sweeney agreed that program technical management from each agency should have a conference call to discuss the request. I've suggested the Superfund, Water and Management Division Directors, along with management from EPA's Houston Lab should be on the call. Do you know which TCEQ counterparts should also participate on

such a call? And do you know what their availability is in the next two weeks? I'll try to obtain EPA management's availability in the meantime so that we can schedule a call on their behalf. I don't expect anyone from EPA Regional Counsel's Office to participate in the call, but will let you know if that changes.

Best regards,

Ed Q.
